Important Letter.

Messrs Curtis & Smith

Dear Sirs — herewith enclose you a few lines relative to your Downs Elixir which for the benefit of the suffering if you think worthy you are at liberty to make public. About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life. Her symptoms were, bad cough, pain in the side and stomach, night sweats, and other premonitory signs of pulmonary consumption. We consulted our best physicians who gave her little or no relief and finally pronounced her case incurable consumption. She continued to become weaker, and the symptoms more confirmed.

About this time at the suggestion of a friend, we concluded to try Downs Elixir. Having procured a bottle from your agent (S R Byram of Eastport) she commenced taking it. At first it seemed only to mitigate the severity of the symptoms, but in a short time her health began evidently to improve. It arrested her cough, relieved her night sweats, and greatly improved the tone of the whole system — After having continued its use most of the time for nearly a year she calls herself cured. She is now able to go about the house and superintend affairs as usual. Under God we believe that to Downs Elixir alone, she owes the preservation of her life and the restoration of former strength and energy. We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success. Yours truly,

(Signed) SWAIN P NORDSTROM

The above is only one of a thousand similar letters which we are constantly receiving from all parts of the country almost daily

DOWNS ELIXIR is unquestionably the best article known for the cure of COUGHS, COLDS and CONSUMPTION. It is more certain to give relief in all cases of ASTHMA — often a perfect cure — than any thing hitherto offered to the public.

In cases of WHOOPING COUGH it needs only to be tried to give it preference over all other remedies. It immediately breaks up the cough and renders it a mere plaything what is otherwise a scourge and terror. For the CROUP it is a positive cure. We speak with confidence for it has never failed, and we believe never will when used according to directions.

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation Soreness and Ulceration of the Stomach Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY

Invented by Dr A Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this, it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles either bleeding or blind, internal or external and probably the only thing that will. There is no mistake about it. It is a positive cure—speedy and permanent. It is also a convenient medicine to take and improves the general health in a remarkable manner.

Each box contains twelve powders at $1 3-4 per dozen. It is very mild in its operation and may be taken in cases of the most acute inflammation without danger — All external applications are in the highest degree disagreeable, inconvenient and offensive and from the very nature of the disease temporary in their effect. This Medicine attacks the disease at its source and REMOVING THE CAUSE renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine ... superior to all others in all diseases of an inflammatory character with ... in the Inflammation of ... the Liver and Spleen, Inflammation, ... and Ulceration of the Stomach Bowels, Kidneys and Bladder, in inflammatory and mercurial rheumatism, it is the Best Medicine ever discovered.

IMPURITIES OF THE BLOOD

For all impurities of the Blood arising from an imprudent use of Mercury or otherwise ... diseases of the Skin and Scrofula in all chronic ... where the blood is powerfully determined to the head producing dizziness and distress DR UPHAM'S ELECTUARY is entirely unequalled.

TO MARRIED LADIES

Married Ladies are almost invariably subject to a painful and dangerous disease, the PILES, with a constant inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head &c. This Electuary is perfectly safe for Pregnant Ladies and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases WITHOUT PAIN or IRRITATION but will ensure an easy time, a safe delivery and a sound constitution to the offspring.

CURE FOR LIFE GUARANTIED

The Electuary contains NO MINERAL Medicine, no Aloes Colocynth Gamboge, or other powerful and irritating purgative. No fear of taking cold while under its influence no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving ... information respecting the Medicine may be had of Agents gratis.

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted on all diseases incident to the human frame at his office

No 55 Union Street.

Dr D has been in extensive practice in all parts of the United States and has in his possession the best of evidence to show that he is a regular M. D. He has been upwards of 40 years in practice. The diseases of females will receive the particular attention. He will tell all the diseases from an examination of the eye. This is an advantage that Dr D has above all other practitioners and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient of the disease with which they are afflicted. The age and length of time the patient has been suffering is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula Rheumatism Fits Dysentery all diseases of the Eye and Ear, Diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum Cancers, Cutaneous diseases and all affections of the kidneys and bladder, Tic doloureux, Hernia, Abdominal Weakness, Tooth ache, Intemperance, Stammering. Dr D warrants a cure of any of the above diseases if applied to in season.

He would also respectfully inform the Ladies he will attend to their diseases and complaints from 8 to 2 AM and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package

All communications (post paid), with a fee enclosed will be strictly attended to.

Whig and Courier.

John S Sayward,—Editor.

FRIDAY, JUNE 2, 1848.

We cannot understand why it is that certain editors and politicians undertake to pour out their vials of wrath upon every Whig who believes, and has courage to avow his belief that Gen Taylor should be nominated Has not every man a right to his own convictions, and if honestly entertained, a right to have them respected? We know that some men think they were born to command—and that the profession of a goose quill at once invests the man with the power to bind and loose—to dictate platform and bless—to insult and praise as their own whims and wishes dictate But we ask again, who made these men dictators It would be well once for all, for those self constituted regulators to understand that men are not to be driven from their convictions by abuse, or insult, or threats, and that the people have a conviction that they understand some things and some men, as well as those who assume to be wire pullers! What would be said if those who advocate Gen Taylor's nomination should attack the character, motives and opinions of those who advocate Mr Clay, or Mr Webster or Gen Scott, in the style and manner that certain writers indulge in towards them The advocates of Gen Taylor have used no disgusting or vituperative language towards those their men of their preference They are as good and true Whigs as he [illegible] brethren, and have a right to their opinions, and will express them fearlessly and freely

The people are with them And it would be wiser and more prudent for those who assail them, to learn a lesson of modesty and self distrust, rather than attempt to stem the current or to force back the rising waves

* * *

The news from Mexico seems to render it quite certain that the Treaty will be ratified and that for the present at least, there will be a suspension of host lities, and a sort of peace The message of President Peña y Peña at the opening of the Mexican Congress, is clearly and unequivocally for peace He deplores the separation o New Mexico and Upper California from the Mexican Union, considers, on the whole, that the loss is gain to Mexico, in view not merely of the recompense of $15,000,000, but of the recovery of ports and invaded states, and of the cessation of the horrible and devastating evils of war The President recommends the ratification of the treaty just as it is amended, He implies that our government has not been just in its modifications of the treaty, but thinks that the opportunity of making peace should not be set aside on that account His opinion is strengthened, moreover, by the reasonable conclusion to which he arrives, that a new negotiation can not be expected, much less one that would be more favorable to Mexico

HIGHLY IMPORTANT FROM MEXICO.

The Royal Mail steam packet Tay Capt Sharp from Vera Cruz whence she sailed on the 19th ult touched at Ship Island on Saturday evening, the 20th inst

The Tay takes out to Europe, besides a large number of passengers, $652,000 in specie and 432 bales of cochineal.

Passengers by the steamer speak confidently of the ratification of the treaty by the Congress at Queretaro, and say that it was to be signed on the 25th inst

Queretaro May 6

The number of Senators present is thirty three and we therefore have a quorum of the French of Congress Yesterday Pedraza was elected President of the Senate There being seventy five deputies present, there is also a quorum and a few more of the lower House Francisco Pillo Aga is the President of this chamber—Monday the 8th inst, is the day fixed upon for the discussion of the treaty It is presumed, from the political division of the Deputies that sixty one will vote for peace and fourteen for war

One of the principal States of the Mexican Republic, that of Jalisco, has sent a communication to the Government in which it says "If our rights defers any longer its definite meeting the State of Jalisco, for its part, will recognize the treaty made by the Mexican Government as satisfactory and will recall its delegates" This communication was sent to the Senate, and was read on that body to-day.

Letters from Queretaro of the 6th 7th 8th and 9th instant go to show a mutiny among the troops at Queretaro, threatening the existence of the Government In the first place we find the troops manifesting a revolt and the fact is sufficient to compel the government to accede to the demands of the officers Next we see the military thrusting themselves into the halls of Congress and openly attempting to influence the action of the National Legislature in regard to the treaty After words they succeed The rules of the chamber require a treaty to be discussed in secret session but a few officers, who with about eight hundred men at back them overawe the assembly, and it is decreed that pending the consideration of the treaty no session shall be public To all this must be added the fact that Paredes, Almonte and Jarauta are revolutionizing through the States of Zacatecas, Aguas Calientes Guadalajara and San Luis Potosi, each one seeking to raise a *pronunciamiento* against the Government and against peace The prevailing opinion in well informed quarters is that the treaty will be ratified The Church contends that at the extent of the further prosecution of the war he net results of the country is lost, and the ascendancy of the clergy is destroyed is the fast friend of peace But the opponents of the treaty are the Pure the particularly Gomez Farias and inveterate enemy of the ecclesiastical power Those in which two are also likely to be influenced by the Church

Queretaro May 8th

The communication from the State of Jalisco the Government has had effect The opening of the Chambers has been appointed to take place at half past 5 this afternoon A salute of artillery half past 6 announced the beginning of the Chambers The President Peña y Peña delivered a speech The Chamber have just agreed to the reading of the treaty to-morrow They think it tranquil The officers of the army have received their full monthly pay Therefore for the present there is no idea of a *pronunciamiento*

Queretaro May 11th

The Chambers assembled at half past 12 o clock The session is secret At 2 o clock the doors were opened, and after reading documents of little importance, a deputy from Rio addressed the Chambers and demanded that before the discussion of the treaty was gone into the propositions of Deputy Don Manuel Crescencio Rejon should be considered—When he had done Deputy Prieto spoke and said that the proposition and reasoning of Rejon were absurd and fallacious and being so he demanded of the Chamber to reject it This motion prevailed by a large majority

Mexico May 25th

It is now thought the commissioners will not go to Queretaro until the treaty is ratified by the Mexican Congress, and they will then go there merely to exchange ratifications. In case peace is made I understand the infantry and artillery will embark at Vera Cruz for Antigua for the United States and the cavalry at Tampico to which point they will go direct from this city

Gen Kearney has left Vera Cruz for the city of Mexico Col Wilson is again Governor of Vera Cruz having taken command in that capacity on the 13th inst—N O Pic, May 22

IRELAND

The ferment in Ireland is by no means allayed and the opponents of Government are as virulent as ever as their late meetings and their orations On the 13th Mr Mitchell editor of the United Irishmen was arrested in Dublin and committed to Newgate prison, for a daring article published in the paper of that day

The article on which the compliment was founded was upon the right of tenant farmers to hold their land forever with arms in hand Indeed the people to combine together to refuse and pursue resistance denounced the Queen as a foreign sovereign drew a vivid picture of the contrast between the condition of the Irish farmer and the English nobleman or landlord superadded the divine right of King asserts that the divine right is in the sovereign people alone, and declared that before harvest the sun should flash glorious through a hundred thousand pikes

The trial of W S O'Brien M P for sedition was concluded, and the Jury after being absent 24 hours were discharged without coming to an agreement

Mr Meagher of Waterford was committed but the former had announced in Court that there was no probability that the Jury would agree

Water Mill Wheels.

Tubey's Patent
Two Ven Cast Iron Water Wheels,
—for—
SAW MILLS,
Invented by T. R. Tubey of Cato N. Y.

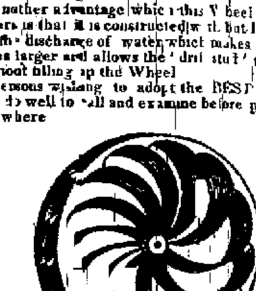
THE undersigned would invite the attention of the Public to the above named WHEELS which have been thoroughly tested in Cornwall, with all other popular

SAW MILL WHEELS

in use at the present time, and invite can identify recommend them, with the same head and quantity of water applied, as possessing and combining more *Strength and Speed*, and giving a more uniform and *Steady Motion* in and out of the cut (and therefore not liable to break cranks) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with ... which makes the apertures larger and allows the drift stuff to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere



We would also call the attention of Mill Owners and Operators to

Valentine's Patent
Reversing Centrifugal Water Wheel,
—FOR—
"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel for perpendicular Shafts now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by HIRAM A. BEARD, Esq, Civil Engineer—Lowell Mass. who is well known as one of the most scientific and experienced practical Engineers in the country

"This wheel is formed with curved float ... number depending upon the size and velocity ... Wheel each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very heavy ... from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by a stationary plate underneath the Wheel ... that it has no downward pressure upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is avoided and much of the power usually lost in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water and will run as well in back water ... fast as the back water. But a Wheel with the jet rightly gauged for a high head will not answer for a low one and vice versa for as the head increases, the width of the jets should be proportionably decreased, so that the water may not issue to great effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless ... less liable to need repairs ... much more durable and takes very much less room ... Simplicity of structure, durability of parts, convenience of application and excellence of ... are the grand points of recommendation for this Wheel
